

*Contents****Modernization practice***

*Bednyi B., Chuprunov E.* Development of researchers training system at higher school.  
*Senashenko V., Kon'kova E., Vasilieva S.* Graduate school in the modern model of engineering education.

*Kim I., Lisienko S.* The role of master's degree programme in strategic development of higher educational institution.

***Jubilee***

*Fedorov I., Baltyan V.* Formation and development of Russian university technical education.

***University life***

*KNRTU: Towards the International Research School* (Interview with rector of Kazan National Research Technological University German S. Dyakonov).

*Dyakonov G., Ivanov V., Kondratyev V.* Strategy of development KNRTU as a centre of training of innovative engineering personnel in the field of chemical technology.

*Buchanan W.* How ASEE can benefit society by making students aware of engineering early.

*Auer M., Prikhodko V.* Towards the 42<sup>nd</sup> IGIP International symposium on engineering education in Kazan in 2013.

*Biktagirov I., Vologdin A.* preparation of engineering staff for the activities under WTO.

*Ivanov V., Gurie L.* Centre of engineering pedagogy in Kazan.

*Barabanova S., Kajbiyainen A.* Villach – Kazan: the global trends in engineering education development.

***Crossroads of opinions***

*Lebedev S.* Russian science and higher education: twenty years after.

*Esenina E.* Sources of term creation in modern Russian vocational education.

*Robotova A.S.* And again... about research and educational texts.

***Sociology of education***

*Zelenev i., Tumanov S.* Teaching quality assessment in higher education institution within the context of students' perceptions of teachers (sociological study experience).

*Gaidukova G.* Sociological monitoring of customer satisfaction with the quality of the educational services.

*Ivanova L.* Russian students: work and health.

***Discussing a problem***

*Efremova N.* Evaluation quality as a guarantee of students' competence-based training.  
*Smirnov V., Sadkov V., Lukyanchikova T.* Objective reference points of compensation of teachers.

*Solovov A.* "Gold cells" of virtual learning environments.

***Pages of history***

*Gorokhov V.* Scientific engineering education: convergence of the Russian and German experience.

*Tsekbovoy N.* The features of the domestic system of doctoral training in 1962–1991.

***Horizons***

*Schedrina T.* Intuitions of future in "existential diaries" of 1920–1930s: Grigory Tseretely, Mikhail Prishvin, Gustav Shpet.

***Editorial Mail***

*Iosifov P., Pervanyuk A., Siluyanov M.* About the sectoral centres for prediction of scientific and technical development.

*Adolf V., Pilipchevskaya N.* Tutorial activity as a mechanism of FSES realization.
